

Grande Prairie Compassionate Community Framework in Palliative Care

Vision:
We are a compassionate community that promotes living well by supporting others through caregiving, dying, and grieving.

Our Mission

To establish and maintain expert end-of life care for community members with terminal illness and provide support for their families

We are a voice for the community.

We are an ear to public need.

Compassionate Communities

Making Connections. Making a Difference

What is a Compassionate Palliative Care Community?

The framework of a Compassionate Community recognizes that care for one another at times of crisis and loss is not a task for only health and social services but everyone's responsibility.

This public health initiative is designed to:

- Be inclusive of all ages, from children to seniors, providing a life-span approach to palliative care.
- Demystify death in hopes that we all become more comfortable with talking and planning for death.
- Provide support and palliative care earlier in the case of a terminal diagnosis.

Implementing the Compassionate Communities model will encourage:

- Better preparation for caregiving, dying, death and grieving
- A feeling of empowerment and connection to community
- Improved mental health and quality of life.

About GPPCS

GPPCS is a small not-for-profit Society that strives to help support Palliative end-of-life clients and their loved ones living at home or in the community in Grande Prairie and surrounding areas.

Assist clients and families with palliative care needs.

Promote education of health care professionals and volunteers who deliver end-of-life care.

Work to increase awareness of palliative care in our community and region.

Advocate for easily accessible end-of-life care resources.
