Our Mission

To establish and maintain expert end-of life care for community members with terminal illness and provide support for their families.

We are a voice for the community.

We are an ear to public need.

Virtual “Care” Project

The **Virtual “Care” Project** is sponsored by Swan City Rotary Club through Grande Prairie Palliative Care Society (GPPCS).

GPPCS loans smart devices (iPad, tablet, smartphome) to residents and their family to utilize during their stay in Hospice. The smart devices are loaded with apps, resources and books for residents and their family to utilize.

Devices are loaded with a Gmail addresses and are linked to a corresponding google photos account **which the client and their family are the only people with access too**. Photos and videos that are taken on the device will automatically upload to google photos to enjoy and review at leisure. The account login **is only shared with who the client and family chooses** and it is theirs to keep indefinitely.

Upon return of the device to GPPCS we will wipe the device to factory settings and reload it for the next family to use and enjoy.

GPPCS Website is added to the homepage of each device to browse through. It is packed with resources and information to help along the journey.

Hangouts, What’s App, Skype, Facebook, Instagram, Twitter etc. are installed to the homepage. These apps are used as a tool to provide leisure, enjoyment and connect clients with their loved ones afar, communities, and normalcy of the everyday.

Volunteers and staff are always available if clients or families are in need of assistance or training using these devices.

Volunteers can also be paired with clients and families to provide virtual visitation, comfort and resources during their stay in hospice.

About GPPCS

GPPCS is a small not-for-profit Society that strives to help support Palliative end-of-life clients and their loved ones living at home or in the community in Grande Prairie and surrounding areas.

Assist clients and families with palliative care needs.

Promote education of health care professionals and volunteers who deliver end-of-life care.

Work to increase awareness of palliative care in our community and region.

Advocate for easily accessible end-of-life care resources.
